

# 17th IUAPPA World Clean Air Congress and 9th CAA Better Air Quality Conference

29 August – 2 September 2016 | Busan, South Korea

## CLEAN AIR FOR CITIES – PERSPECTIVES AND SOLUTIONS

According to the World Health Organization, air pollution now accounts for more than 7 million premature deaths globally each year. Given the magnitude of the health impacts, there is a pressing call for action by the international community. Solutions to air pollution are particularly important at the city level, where the impacts are directly felt and where the main sources of pollution are often found.

Effectively tackling this challenge requires new technologies, policies and partnerships, which will have significant implications for businesses, public authorities at local, city and national levels, international aid organizations, civil society and the scientific community.

Recognizing the scale and urgency of the issue, the two leading international air-quality meetings - the 17th World Clean Air Congress (WCAC) and the 9th Better Air Quality Conference (BAQ) - are meeting jointly from 29 August to 2 September in Busan, South Korea, in a landmark event themed "Clean Air for Cities - Perspectives and Solutions". This is a unique learning, outreach and networking event for public agencies, businesses, research institutions and NGOs.

## CONFERENCE PROGRAM OVERVIEW

Day 1 29 August Monday	Day 2 30 August Tuesday	Day 3 31 August Wednesday	Day 4 1 September Thursday	Day 5 2 September Friday
Trainings, Meetings and Breakout Sessions	Opening Ceremony	Breakout Sessions and Dialogues	Breakout Sessions and Dialogues	Town Hall Meetings and Workshops

WCAC 2010 Vancouver, Canada  
WCAC 2013 Cape Town, South Africa

## 10 REASONS TO ATTEND THE WCAC AND BAQ 2016

- 

**1. Be part of a landmark event** showcasing more than **25 years of combined conference history** in tackling air quality issues, research and solutions
- 

**2. Benefit from a conference** that has the proven **ability to leverage** change, influence policies, **initiate** new programs and projects, and **establish** innovative partnerships
- 

**3. Enjoy unparalleled networking** opportunities with more than **1200 expected participants** from around the world representing governments, the private sector, academia and civil society
- 

**4. Learn from a high-quality, targeted conference program** that has been reviewed by a panel of air quality management experts
- 

**5. Access reliable sources** of the latest information on **air-quality science, current issues, trends and policies**
- 

**6. Plan your next steps** in tackling air pollution in cities
- 

**7. Engage with leading decision-makers and stakeholders** in the fields of air quality and climate change, sustainable urban transport, and urban air quality management
- 

**8. Take part in discussions, dialogues and debates,** and share experiences and best practices with industry peers
- 

**9. Learn about groundbreaking innovations** and meet leading providers and industry leaders in air pollution management
- 

**10. Experience Busan's hospitality** as the city plays host to the conference for the first time!

## PRE-REGISTRATION FORM

Please complete this pre-registration form and send to [baq@cleanairasia.org](mailto:baq@cleanairasia.org) and [iuappa@wcac2016.org](mailto:iuappa@wcac2016.org)

Name: Last Name                      First Name	Address:
Position:	Contact number:
Organization:	Email:
Nationality:	<input type="checkbox"/> I am interested in attending and would like to receive more information about the conference.
