The 10th ENTECH, The Most Successful Marketplace for Environment & Energy in Korea

- Korea's Leading Environment & Energy Tradeshow, ENTECH 2016
- An Ideal Marketing Platform to Connect with Korean and International Professionals.

Overview of Environment, Energy and Wind Industry in Korea

I. Environment Industry

- Environment Industry sales scope: USD \$55billion in 2010 (51% increased from 2006)
 Manufacturing: USD \$ 11billion, Water Supply: USD \$5billion, Sewage Treatment: USD \$12billion, Construction: USD \$8billion, Distribution: USD \$16 billion, Services: USD \$1billion
- Core environmental technologies such as advanced wastewater treatment will be intensively fostered as an Eco-innovation business by the government (2011-2020, USD \$2.1 billion)
- Average annual growth rate of the environment industry: 28.8% (2009)
- By 2020, new & renewable energy supply rates (5.8%) aims to be covered by waste resources and biomass energy of 82%

II. Energy Industry

- Ranked the 10th country globally for energy consumption : import of energy resources amounting to USD \$121 billion (96%) from overseas (28% of total imports)
- Renewable Energy Industry Development Strategy in 2010 : USD \$40 billion to be funded by 2015
- Enforcement of compulsory policy on New & Renewable Energy supply from 2012
- Allocation plans for the Renewable Energy (11% of total energy) by 2030
- It is increased to 137% (USD \$2.6 billion, 2011) compared to 2010
- Targeting the world's 3rd offshore wind power production, approximately 2.5GW of offshore wind power complexes are planned to be completed by 2020 (USD \$8.5 billion investment)

Exhibition Overview

Title	Environment & Energy Tech 2016 (ENTECH 2016)
Date	August 31 (Wed) ▶ September 2(Fri), 2016 (3 days)
Venue	Exhibition Center I, BEXCO
Size	300 Exhibitors, 750 Booths
hosts	Busan Metropolitan City, Kukje Daily News
Organizers	BEXCO, Today Energy, KOTRA, Busan Sustainable Consumption Support Center
Sponsors	Ministry of Trade · Industry and Energy, Ministry of Environment, Small&Midium Business Administration, Korea Electric Power Generation, Korea Hydro & Nuclear Power, Korea South-East Power, Korea Midland Power, Korea Western Power, Korea Southern Power, Korea East-West Power, Korea Gas Corporation, Korea Gas Safety Corporation, Korea National Oil Corporation, Korea Industrial Complex Corporation, Korea Energy Management Corporation, Korea Environment corporation, Korea Environment Industry & Technology Institute, Korea Environment Industry Association, Korea Wind Energy Industry, Korea Environmental Preservation Association, The Busan Chamber of Commerce & Industry, Busan Environmental Corporation, Pusan Machinery Industry Cooperatives, Busan Techno Park, KBS Busan, Busan MBC, KNN
Global Partners	China Energy & Environmental Technology Association(China) CJ Exhibition Services(Singapore), Global Expo(Vietnam) EIMS Vietnam(Vietnam), Nippo business(Japan)
Media Partner	AVING NEWS

Concurrent Event

- Busan Global Water Forum 2016 (August 31-September 1st)

Seminars and Events

Title	Date	Contents
1:1 Biz Matchmaking	Aug. 31-Sep. 1st	Between Korean and International companies (Applied to all exhibitors)
Seminars	Aug. 31-Sep. 2nd	Environment & Energy Industry
Yacht Convention	Aug. 31	Business Dinner Party with exhibitors and international guests
Green Energy Concert	Sep. 1st	Free Entrance(with Pass)

Exhibit Items

Environment	Water, Waste Treatment, Air, Anti-Pollution
Energy	Renewable (Wind, Solar, Fuel cell, Geothermal, Biomass), Electricity, Gas, Power Generation, Energy Efficiency, ESCO, Public Sector

Booth Information

Category	Provided	Fees
Package Booth (3×3×2.5m)	One standard booth (3mX3m) includes: - Back and side walls with the high of 2.5 meters - Company name and booth number(no logo)	US\$ 2,000
Space Only (3×3m)	- Only booth space is provided - Booths must be installed and managed by booth construction company hired by the exhibitor.	US\$ 1,500

- ※ Discounts may apply to: 1) early registrants, 2) booth size, 3) frequency of participation in ENTECH
- ※ Allocation of a booth shall be made under the consideration of the order of applications, payment received, products and services to be displayed, booth size and type, frequency of participation and any other reasonable standards.

Application Information

How to Apply	Submit a completed application form to BEXCO by email, fax or register online (www.entechkorea.net)
Required Documents	Application form
Early Registration	April 30(Sat), 2016
Deadline	June 30(Thu), 2016

Payment

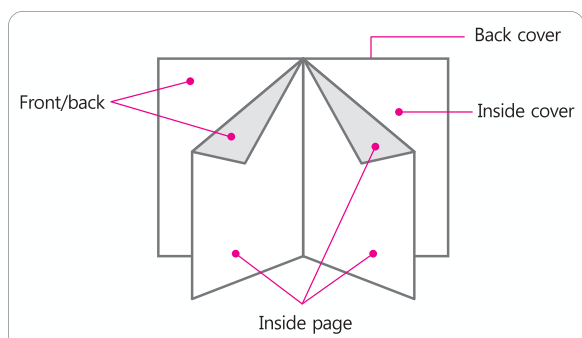

Category	Amount Due	Date
Deposit	50% of Total Participation Fee	Within 2 weeks from Application
Balance	50% of Total Participation Fee	June 30(Thu), 2016

※ Payment Account : Busan Bank 320-01-000329-3 (Account Number : BEXCO)

WELCOMING MESSAGE

The International Exhibition Fair on Environment and Energy Technology ENTECH Hanoi 2016 has continuously held since 2009. After 6 year of successful organizing, ENTECH Hanoi has contributed to the trade and investment promotion; dissemination of equipment, advanced and energy-saving, reducing pollution technologies.

The 8th International Exhibition Fair on Environment and Energy Technology (ENTECH Hanoi 2016) from 18th to 20th May, 2016 at Hanoi International Exhibition Center will promote technology transfer markets to save energy, reduce environmental pollution in the community to improve energy, natural resources and environment efficiency use in the context of the world that plan in responding to climate change, towards a low-carbon economy.

ENTECH Hanoi 2016's Organization Committee warmly welcome and wishes all participated enterprises and businesses get many practical results.

- Hanoi People's committee -

Overview

Title	Hanoi Environment & Energy Tech 2016 (ENTECH Hanoi 2016)
Date	May 18(Wed) - 20(Fri), 2016
Venue	ICE, Hanoi, Vietnam
Size	150 Companies, 240 booths from 8counties
Organizers	Bexco, Today Energy, ECC Hanoi, Global Expo
Sponsors	Korea Ministry of Trade • Industry and Energy, Busan Metropolitan City Vietnam Ministry of Industry & Trade, Vietnam Ministry of Construction, Vietnam Ministry of Science & Technology, The Hanoi People's Committee, Vietnam Association for Conservation of Nature and Environment, Vietnam Energy Conservation and Energy Efficiency Association, Vietnam Electrotechnical Industry Association

Environment and Energy Industry in Vietnam

Power Generation · Electricity

- ◆ Enforcement of Nuclear Energy Law : By 2050, Proportion of Nuclear power will be expanded to 15-20%.
 - Nuclear power plant construction companies will be selected between 2014~15.
 - The first nuclear power plant will be constructed By 2020.
- ◆ Electricity : Annually increased 17-22%, It will be increased to 294TWh by 2020 and to 562TWh by 2030.
- ◆ Power plant : 98 power plants have been constructing (total capacity of 58,000 MW) between 2006 to 2015.
- ◆ Hydro power : Plans to construct hydro power plants as many as possible by 2020.
- ◆ Wind Power : Because of the geographically long coast line from north to south, estimated capacity of wind power can be more than 110,000MW.
- ◆ Interest in the field of energy savings and solar energy is being increased

Crude oil and natural gas

- ◆ Third in oil-producing countries in Southeast Asia (83 million barrels per year)
 - 50 billion tons reserves.
- ◆ Five new oil refinery plants will be constructed by 2020 (57 million barrels of refining capacity)

Waste and water Treatment

- ◆ The Industrial and household wastes have been increased dramatically due to the industrialization and the improvement of living standards.
- ◆ The construction projects of waste disposal facilities worth of 588 million US dollars throughout Vietnam by 2020 was ratified by the Vietnamese government.

Governmental Plan of the prevention of the environmental pollution and energy saving technology

- ◆ The environmental protection law against the violations of the environmental regulation was enforced in December 2009.
- ◆ 'Power-Saving Marks' plan will be published by the Vietnamese government.
- ◆ Stricter regulations were enforced on manufacturing plant and factory) for environmental protection due to the serious environmental pollution of major cities, rivers and harbours → Environmental protection technology and equipment are mandatorily required.

Environment and energy-related infrastructure projects

- ◆ Green Project (Vietnamese Ministry of Plan & Investment)
Priority to the construction projects about Anti-pollution, environmental protection, waste treatment.

Exhibit Items

Energy-saving product and technology

- Industry and Construction: Equipments, Monitorings, Materials, Technology
- Renewable energy: Solar, Wind, Biomass, Biogas, Bio-Petroleum
- Transport and Communications, Gas, Petroleum, Alternative Energy
- Energy Saving & Equipment
- Coal and Collective Energy
- Consulting, Software
- Household Appliances

Environmental protection product and process technology

- Waste, Water, Dust, Emissions, Noise, Odor Treatment
- Processing technology for living environment
- Monitoring, Environment Analysis, Consulting and Technology Transfer

Nuclear Energy

- Plant construction
- Equipment, maintenance
- Safety Product
- Electronic communication

Concurrent Events

- 1:1 Business Matchmaking Program (May 18 to 20)
- Korea-Vietnam Environment & Energy Cooperation forum (May 19 to 20)
- Welcome reception between exhibitors and invited buyers (May 18)
